

Easy e-Linux Embedded

e-Way “Instant” Embedded Linux – Lowest Cost

Cut cost and effort for custom Embedded Linux and Win CE projects. Our new “Instant” Embedded Linux does not need initial project cost. Promote your embedded hardware and IPC’s with e-Way Embedded Linux. Low cost Universal Embedded Linux runs on many kinds boards, systems.

The easy way: Instant, No design fee, Open design

1. New embedded technology cuts cost.
2. Auto detect most hardware, devices.
3. Universal – easy to port to new hw.
4. Familiar window style appearance.

Special Customer Features for SI:

1. No need initial design fee or NRE
2. Universal instant solution = low cost
3. Open design – add your application
4. Fast boot time: 45 secs, customizable

e-Way Embedded Linux Spec: Open Design – like a mini desktop

1. Linux kernel 2.4, supports pcmcia, wireless, USB, flash, etc. Approximately 45MB.
2. Email, browser, editors, PDF viewer, audio player, games, picture/slide viewer, file manager, terminal shell, utilities, etc. Easy to add your own applications, we help.

Flash, CD, Hard Disk Options – Open design, you can modify:
